

Daily Positive (D+)

Your Daily Source Of Positive News From Around The World

Daily Positive (D+) is a not-for-profit media initiative to accumulate, store and publish positive news from all the countries of the world. D+ collects news for each of the 365 days of the year and spreads notable, extraordinary and uplifting information from each culture.

Its mission is to engage global citizens in interesting, thought-provoking dialogue about trending news topics through positive, open concept journalism.

Overview

Welcome to D+ April 2026 Newsletter. It is the 208th edition of the D+ Newsletter compiled with some of the news published in April 2026 on D+.

Despite the doom and gloom created by multiple wars around the world, D+ and its volunteers have continued to focus on stories of hope and positivity. You will be pleased to know that beyond the often disappointing and demoralizing headlines of mainstream news, there is still a world filled with inspiring achievements and positive change. Congratulations and best wishes to all those creating these uplifting stories — you are truly leading the way toward a brighter future. As we did in April 2026, D+ will continue to recognise and promote these positive heroes in the years ahead. Join us in supporting these heroes and help spread positivity today.

Visit our online store Babatye <https://www.babatye.com/> for our new collections. All the profits from our stores will go as donation to D+. It would help our non-profit organization if you can share this with your contact.

D+ is a non-profit media initiative that heavily relies on the generous support from everyone. Please consider a donation today.

Top News Of The Month

Top News Of The Month is selected based on the feedback from D+ Facebook fans from around the world.

Researchers at McGill University in Canada have developed a rapid way to engineer blood clots that stop severe bleeding and support tissue healing more effectively.
