Overview

Welcome to D+ September 2026 Newsletter. It is the 213th edition of the D+ Newsletter compiled with some of the news published in September 2026 on D+.

In September 2026, world leaders once again gathered at the United Nations General Assembly to discuss some of the most pressing challenges facing our world. We took this opportunity to reach out with a simple message of positivity, hope, and the belief that positive change is always possible. This month also gave us another opportunity to reconnect with many of our wonderful volunteers and welcome new members to our growing community. We are grateful for everyone who continues to contribute their time, ideas, and energy. There is much to look forward to!

Visit our online store Babatye <https://www.babatye.com/> for our new collections. All the profits from our stores will go as donation to D+. It would help our non-profit organization if you can share this with your contact.

D+ is a non-profit media initiative that heavily relies on the generous support from everyone. Please consider a donation today.

Top News Of The Month

Top News Of The Month is selected based on the feedback from D+ Facebook fans from around the world.

Chinese researchers have developed solar cells that can function 10 metres below the surface of the oceans, and tested the world's first submarine solar farm, opening up the possibility for powering submerged sensors, cameras and communications systems far from land.
