
Congratulation to the winners of the D+ World’s Most Positive Countries 2019! France was crowned as the World’s Most Positive Country in 2019 for the first time ever in the 9th year of this award series. More insights are:

- Australia, China and Germany are the only three countries that made it to all the previous lists of most positive countries.
- Ethiopia, South Korea, Denmark, Costa Rica and Argentina are the regional winners.
