

Daily Positive (D+)

Your Daily Source Of Positive News From Around The World

Daily Positive (D+) is a not-for-profit media initiative to accumulate, store and publish positive news from all the countries of the world. D+ collects news for each of the 365 days of the year and spreads notable, extraordinary and uplifting information from each culture.

Its mission is to engage global citizens in interesting, thought-provoking dialogue about trending news topics through positive, open concept journalism.

Overview

Welcome to D+ May 2025 Newsletter. It is the 197th edition of the D+ Newsletter compiled with some of the news published in May 2025 on D+.

D+ has been actively organizing workshops throughout May 2025 with researchers from diverse disciplines across the globe. The aim is to foster stronger collaboration between D+ and the international research community, helping to accelerate the dissemination of cutting-edge research and innovations. D+ is dedicated to sharing the positive achievements of researchers with the world. If you know someone conducting impactful research that deserves wider recognition, we'd love to hear from you!

Visit our online store Babatye <https://www.babatye.com/> for our new collections. All the profits from our stores will go as donation to D+. It would help our non-profit organization if you can share this with your contact.

D+ is a non-profit media initiative that heavily relies on the generous support from everyone. Please consider a donation today.

Top News Of The Month

Top News Of The Month is selected based on the feedback from D+ Facebook fans from around the world.

A German research team has, for the first time, used the German environmental satellite EnMAP (Environmental Mapping and Analysis Program) to simultaneously detect the two key air pollutants carbon dioxide (CO₂) and nitrogen dioxide (NO₂) in emission plumes from power plants – with an unprecedented spatial resolution of just 30 meters.

Let your voice be heard and join us on Facebook.
