Overview

Welcome to D+ September 2025 Newsletter. It is the 201st edition of the D+ Newsletter compiled with some of the news published in September 2025 on D+.

In September 2025, world leaders gathered at the United Nations General Assembly to address the most pressing issues facing humanity. We took this opportunity to reach out to as many of them as possible with a message of positivity. Even though the world often seems overwhelmed by negativity, we hope that our small effort will help spark some positive change in the days to come. Along the way, we had the chance to reconnect with many of our dedicated volunteers—and were thrilled to welcome new ones to our community. Exciting times lie ahead!

Visit our online store Babatye <https://www.babatye.com/> for our new collections. All the profits from our stores will go as donation to D+. It would help our non-profit organization if you can share this with your contact.

D+ is a non-profit media initiative that heavily relies on the generous support from everyone. Please consider a donation today.

Top News Of The Month

Top News Of The Month is selected based on the feedback from D+ Facebook fans from around the world.

Indonesia and the European Union (EU) reached an agreement on a free trade pact after more than nine years of negotiations, a free trade deal that will scrap most tariffs between the regions.
