

Daily Positive (D+)

Your Daily Source Of Positive News From Around The World

Daily Positive (D+) is a not-for-profit media initiative to accumulate, store and publish positive news from all the countries of the world. D+ collects news for each of the 365 days of the year and spreads notable, extraordinary and uplifting information from each culture.

Its mission is to engage global citizens in interesting, thought-provoking dialogue about trending news topics through positive, open concept journalism.

Overview

Welcome to D+ April 2025 Newsletter. It is the 196th edition of the D+ Newsletter compiled with some of the news published in April 2025 on D+.

In April 2025, D+ founder, Dr. Arif Jubaer, embarked on a seven-country tour—visiting Singapore, Bangladesh, Belgium, Germany, the Netherlands, France, and the UK—to connect with volunteers and readers of D+. The experience was truly inspiring, offering valuable insights into how positive news is received and interpreted in different regions. Our headquarters in Melbourne, Australia, is now reviewing the ideas and feedback gathered throughout the tour and is already enthusiastic about several promising new initiatives that could emerge from this journey.

Visit our online store Babatye <https://www.babatye.com/> for our new collections. All the profits from our stores will go as donation to D+. It would help our non-profit organization if you can share this with your contact.

D+ is a non-profit media initiative that heavily relies on the generous support from everyone. Please consider a donation today.

Top News Of The Month

Top News Of The Month is selected based on the feedback from D+ Facebook fans from around the world.

China has successfully deployed the world's first three-satellite constellation on the distant retrograde orbit (DRO) of the Earth-Moon region of space, marking a milestone in the country's deep-space exploration capabilities.
