Overview

Welcome to D+ August 2025 Newsletter. It is the 200th edition of the D+ Newsletter compiled with some of the news published in August 2025 on D+.

August 2025 has been an intriguing month for the D+ team, which focuses on analyzing trends and current affairs. We've observed a noticeable increase in reader interest in news stories that promote peace. According to our researchers, this may indicate a growing global sentiment against war. Interestingly, our data shows no significant bias among readers in terms of assigning blame to specific groups. Instead, there appears to be a collective desire for the conflicts to end. It's a noteworthy development—and one we'll definitely be monitoring closely.
